Volunteering

Matan Baseter (Charitable Organization) - Volunteered for around 10 years, preparing food baskets for families in need.

Languages

- Hebrew (native language)
- English (fluent)

Experience

ELTA Systems Ltd. | 2022 - 2023
a subsidiary of Israel Aerospace Industries (IAI)

SAP Support at IT Help Desk

- Provided technical support for SAP users, resolving system issues and ensuring efficient day-to-day operations.
- Analyzed SAP-related issues and worked closely with the process definition team to improve business processes and system functionality.
- Gained hands-on experience with SAP modules MM, PP, QM, and SD in a fast-paced enterprise environment.

Intelligence Corps, IDF | 2019 - 2021

SAP Training and Support

- Served as the sole SAP training and support specialist across the Intelligence Corps, providing technical support and delivering individual and group SAP training tailored to different roles.
- Authored a comprehensive SAP user guide that was distributed across the Intelligence Corps and became a key training resource during the COVID-19 pandemic, enabling effective user training despite limited manpower.

Education

Holon Institute of Technology (HIT) | 2023 - 2026

- B.Sc. in Computer Science.
- GPA: 93.79

John Bryce | Jan 2022 - Jul 2022

Makif Ironi Dalet, High School | 2012 - 2018

- Full Technological Matriculation Certificate.
- 5 units in Math, English, Biology, Biotechnology, and Chemistry.

Project

Developed a full-stack bill-splitting app with **Next.js** and **TypeScript**, using **PostgreSQL** and **Drizzle ORM** for accounts, bills, and a credit ledger. Integrated the **Claude API** vision model to turn photos of bills into editable dishes, and **Stripe** for buying scan credits. Implemented **Auth.js** authentication with email verification via **Resend**, built with **Claude Code**, and deployed to **checkplease.tomergolan.dev**
